Dynacare closing Laboratory and Health Services Centre at 16 Green St., Ottawa

As you are aware, there are significant and increasing pressures on Ontario's healthcare system. The effect of our aging population and ongoing fiscal constraints require that all providers review their delivery of service with a sharpened focus on improving quality of care while maximizing cost effectiveness and sustainability.

Accordingly, we at Dynacare must continually evaluate our operations to ensure alignment with this Ontario-wide directive. We have conducted a recent review of our Laboratory and Health Services Centres in Ontario with a focus on providing access to patients.

As a result, we will be closing our Laboratory and Health Services Centre at 16 Green St., Ottawa, effective Friday, February 26th, 2016 at noon.

The nearest Dynacare Laboratory and Health Services Centre location, to which patients should be directed, is at 1221 Greenbank Rd., Ottawa.

A complete list of all Dynacare locations including hours of operations can be found on dynacare.ca.

As always, we are committed to best serve our customers and partners, to ensure we provide the highest value to our healthcare system. Should you have any additional questions, please contact Customer Care at 800.565.5721.

Renee Leventhal

Director, Physician Relations, Ontario
