

Partner Update

Your partners in **care**

March 2018

It has been our sincere pleasure to serve you and to support this community over the past 14 years.

Our commitment to the people of Saskatchewan has always been to provide you with innovative solutions and compassionate care.

We look forward to the opportunity to serve you again in the future.

We have been mindful of the impact that a vendor change in Saskatchewan may have on you. So over the past month, we have been working closely with the Health Authority and the new vendor to ensure the best possible transition to ensure our customers, our employees and the community. We have done this in accordance with our Dynacare values and our mission to support healthy lives with commitment and care.
