

Partner Update

Your partners in **care**

September 2019

Dynacare has been providing laboratory services and health solutions for more than 50 years through our commitment to innovation, state-of-the-art testing facilities, and collection sites.

Improving patient access, delivering an improved patient experience and providing a safe and enjoyable workplace for our employees have always been priorities for Dynacare. As a result, we are making a significant investment in new collection 'supersites' in Winnipeg that will begin to open in December 2019.

These new, larger supersites are conveniently located, have ample free parking, will be open longer hours including weekends, and will have many employees to service the collection needs of patients. Last year Dynacare also launched the Dynacare Net Check In app, which allows patients to remotely check in and simply arrive for their test rather than have to wait in line. All of our new locations will have this convenient feature.

With the opening of these new supersites, Dynacare will be relocating a number of smaller locations that are within 1 to 6 kms of the new supersites. We will be posting notices in the relocating locations to notify patients in advance.

More information will follow as construction progresses. For updates, please visit **Dynacare.ca** or call **Customer Care at 800.668.2714**.
