

## Partner Update

Your partners in **care**

October 2016

**New! See Dynacare lab test results faster!  
Dynacare lab results now automatically uploaded to electronic Quebec Health Record**

This means that when your patients have blood work or other tests done at our Dynacare Laboratory and Health Services Centres, you can view the results immediately online so you can diagnose and treat your patients more rapidly and efficiently. Only authorized health professionals can view this information.

This is just one of the many benefits of referring your patients to a Dynacare lab:

- **Faster review and diagnosis** – Lab test results are automatically posted to the QHR, there is no longer a barrier between your EMR and Dynacare.
- **Increased compliance** – Dynacare Laboratory and Health Services Centres have short wait times so patients are more compliant with getting the tests you ordered.
- **Coverage** – Many private health insurance plans cover the cost of lab work. Ask your patients to check with their insurer.
- **Free patient counselling tools** – Dynacare patients get Dynacare Plus for free which is a tool to help them understand their results and be a more informed, engaged patient.

**Patients who provide their RAMQ number will automatically have their lab results posted unless they formally opt-out through the Government of Quebec.**

For more information about the Government of Quebec's QHR system, and how patients can opt-out visit <https://refus.dossierdesante.gouv.qc.ca/en> or call **877.644.4545**.

For more information about Dynacare lab testing please visit [Dynacare.ca](http://Dynacare.ca) or call **800.565.5721**.
