Carrier Screening Test Requisition

Dynacare®

☐ Patient pay
☐ Institutional account #: _____
Institution name: _____

Patient Information

Last name: _____
First name: _____
Date of birth: YYYY MM DD
Health insurance #: _____
Sex: ☐ M ☐ F
Address: _____
No. Street Apt/Unit
_____
City Province Postal code
Tel: _____
Pregnant: ☐ Y ☐ N
Ancestry:

☐ African ☐ Hispanic ☐ Sephardic Jewish
☐ Caucasian ☐ Middle Eastern ☐ Other (specify): ↓
☐ East Asian ☐ South Asian _____
☐ First Nations ☐ Ashkenazi Jewish

Test Information

☐ **Inheritest® 100 Plus Panel** (DYN Code: INH1, LC Code: 481855)
☐ **Inheritest® 300 Plus Panel** (DYN Code: INH3, LC Code: 481874)
☐ **Inheritest® 500 Plus Panel** (DYN Code: INH5, LC Code: 481893)

Request for Kit

☐ Dynacare to ship kit to patient at address indicated above.

Note: Please fax this requisition to 450.901.3084 to request a shipment to patient's home.

Sample Information

Collection date: YYYY MM DD
Collection centre: _____
Collected by: _____
Collection account #: _____

Prescriber Information

Last name: _____
First name: _____
Clinic: _____
Address: _____
No. Street Office/Unit
_____
City Province Postal code
Tel: _____
Fax: _____

Copy results to: _____
Last name, First name
cc. Fax: _____

Clinical Information

☐ No family history/Screening
☐ Known carrier ☐ Partner is a carrier
Disorder/Gene: _____
☐ Multiple SAB
☐ Family history: _____
☐ Chromosome abnormality (include report): _____
☐ Other: _____

Request for Genetic Counselling

☐ Check this box for Dynacare to provide genetic counselling on test results using this requisition as the referral.

Clinician Signature

I attest that my patient has been fully informed about details, capabilities, and limitations of the test.

The patient has given full consent for this test.

Clinician signature: _____

Licence #: _____ Date: YYYY MM DD

Patient Informed Consent

Test Information

Panel	Description	Gene Count
Inheritest® 100 Plus Panel	Includes analysis of more than 100 clinically relevant genetic disorders.	143
Inheritest® 300 Plus Panel	Includes analysis of more than 300 clinically relevant genetic disorders, including all the genes in the 100 Plus Panel as well as additional genes focusing on high-frequency disorders.	350
Inheritest® 500 Plus Panel	Includes analysis of more than 500 clinically relevant genetic disorders, including all the genes in the 100 Plus and 300 Plus panels.	578

Limitations of testing

The technologies used for this test do not detect germline mosaicism and do not rule out the presence of large chromosomal aberrations including rearrangements and gene fusions, or variants in regions or genes not included in this test, or possible inter/intragenic interactions between variants or repeat expansions.

Variant classification and/or interpretation may change over time if more information becomes available. False-positive or false-negative results may occur for reasons that include: rare genetic variants, sex chromosome abnormalities, pseudogene interference, blood transfusions, bone marrow transplantation, somatic or tissue-specific mosaicism, mislabeled samples or erroneous representation of family relationships.

Males are not tested for x-linked disorders, including fragile X syndrome.

This test was developed and its performance characteristics determined by Labcorp. Inheritest® specimens will be sent to Labcorp in the United States. When samples are sent to the United States, personal information, including but not limited to name and date of birth, will accompany the sample. Personal information held in countries outside of Canada could be subject to disclosure to government or other authorities (whether of that country or of another country).

What is done with my sample after testing is complete?

No additional clinical testing will be performed on your blood sample other than those authorized by your healthcare provider. Dynacare will disclose the test results only to the healthcare provider(s) listed on the front of this form, or to his or her agent, unless otherwise authorized by you or as required by laws, regulations, or judicial order. Details on Dynacare's policies and procedures governing patient privacy and health information, including patient rights regarding such information, can be found at: https://www.dynacare.ca/privacy-policy.aspx.
