

Instructions for Healthcare Providers

How to Acquire MOH Funding for Genetic Testing

Applying for Funding and Ordering Genetic Testing:

1. Complete the MOH application form (Request for Prior Approval for Full Payment of Insured Out-of-Country (OOC) Health Services for Diagnostic Laboratory Testing) and a [Dynacare Genetics Requisition Form](#). Please ensure that both patients and physicians have signed the consent sections on the requisition and the MOH form.
2. Fax the completed forms to the Ministry of Health at 416-326-2211 or 1-844-642-0202.
3. Once approved, the MOH will send an approval letter to the prescribing physician.
4. Provide the completed Dynacare Genetics Requisition and MOH approval letter to the patient and instruct them to visit a Dynacare location for their blood draw. Alternatively, if the patient would prefer an at home buccal swab, please reach out to Dynacare Genetics at DynacareGenetics@dynacare.ca for a kit to be sent to the patients home.
5. Provide test requisition and a copy of the MOH approval letter to the patient to take to a Dynacare Laboratory and Health Services Centre, or upload them at requpload.dynacare.ca.
6. If patients have had their blood drawn at a hospital, please reach out to Dynacare Genetics at DynacareGenetics@dynacare.ca to coordinate pickup of the sample from a Dynacare Courier.

Special Considerations

- If the request is urgent, clearly outline this on the funding application form. Prenatal samples are processed urgently and may be completed quicker.
- Patients who do not wish to wait for MOH approval or have been denied have the option to pay privately for their genetic test. Please indicate this on the requisition form and have the patient provide their payment information.
